1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 5 and 7-11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Patton et al.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Patton et al. in view of Oldershaw.

Claim 4 defines over Patton as applied above only in the recitation of the pump.

Oldershaw is cited disclosing in a countercurrent-washing device, the use of a pump. It therefore would have been obvious to one having ordinary skill in the art to modify the device of Patton, to include a pump as taught by Oldershaw, for the purpose of positively moving the fluid from vat to vat.

5. Claims 13-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Patton et al.

Claims 13-15 define over Patton only in the recitation of the particular aqueous bleach as claimed. Nonetheless, to employ one type of bleach over another is deemed to be an obvious matter of choice depending upon the desired effects.

6. Claims 6 and 30-37 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. Claims 16-29 are allowed.
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to FRANKIE L. STINSON whose telephone number is (703) 308-0661.
